Season 1932

Regular users of the site over the past few years will have noticed, and probably made use of, the pre-war files supplied by Bob Ozanne. These files covered the National League and other competitions in 1932 and were, I believe, the first time the results from these leagues were published on-line.

Over recent years, the Speedway Researcher website has grown and the information we have gained has exceeded our expectations. This has led to Bob's files being a bit out of date and in need of a revamp.

The Complete Season Results files complied by Steve Wilkes and Gary Done for the post 1965 years have worked well and we have decided to replicate these files for the 1928-64 era. In doing so, we pay tribute to Bob Ozanne and to Brian Collins whose excellent pre-war information also contributed to this work.

The key to this file is using the CTRL F function on the keyboard. By pressing these keys together, you can open a search box which allows you to look for the information you require. For example, by pressing these keys and typing in National League, will bring up the National League fixtures.

One of the main problems in putting the file together is that a number of riders had nicknames or are programmed with their surname as a constant but with different initials or first names. In cases such as this I have added notes to try and give the best information I can as to who I think competed. Again, this may be subject to change as and when new information coming to light.

Any missing information or amendments would be gratefully received.
