NOTES:

- This file may only be viewed for personal use. No part of it may be reproduced, in full or part, for any other purpose, including, but not limited to: business use, posting on the internet or print.
- All information given is on a 'best endeavours' basis and no liability can exist for any inaccuracies contained herein. Whilst every effort has been made to ensure the integrity of the information given it is, regrettably, possible that errors, discrepancies or omissions may occasionally occur.
- All averages are calculated using the 'traditional' method based on 4 rides per meeting.
- All averages include bonus points. A bonus point is awarded in the case of a rider finishing behind his team-mate provided the rider neither falls to finish the heat or finishes last. This is not necessarily 'low averages' may have been calculated at the time of the meeting.
- In the event of a dead heat, bonus points are given as normal. So, for instance, a rider dead-headed for second place whose team-mate wins the heat, would be awarded 1.5 points for the heat second place plus 1 bonus point. In the event of a dead heat for third/fourth place a rider would gain 0.5 points plus 1 bonus point. Finally, team-mate dead-heading for third/fourth would each have 0.5 points but no bonus point would be given. Hopefully, this clarifies this, rare situation.
- Primary sources of information include, but are not limited to the Speedway Reseachers website, Speedway magazines and local and national newspapers.
- The number of matches that a Guest's role is given as the total number of meetings in which a Guest has ridden for the Team and NOT the total number of Guests used by the Team during the season. Guests include, where sufficient information exists to verify the fact, non-accepted or puno riders who may not be listed as a Guest elsewhere.
- If you can help fill in any of the missing information, or add information that has been omitted, then please contact the Speedway Reseachers with details - thank you.
