

BRADFORD SHELF MOOR

1928

15th April

The meeting was promoted by The Bradford and District Motor Club. It's reported that it was attended by 10,000 spectators. The local paper, the Telegraph & Argus, reported that A.Bellwood fell head first into the ditch when attempting to cross the railway sleeper bridge at high speed ! There was another incident where a rider fell heavily when his front wheel buckled at speed and threw him 7-8f in the air. Probably the most serious incident when a rider skidded badly and crashed into the crowd knocking down a woman who was taken away suffering from shock and a leg injury.
