NOTE: New to speedway in 1955 was the tactical substitute rule and Dick Bradley actually took two such rides in this match! Having blown up an engine in heat four, he went home for another and, while he was away, Chris Boss took his programmed ride in heat seven. Bradley then replaced Pymar in heat eleven and the Bristol managements interpretation of the rules was that Bradley could then take one of Boss's rides, as Boss had previously taken one of Bradley's scheduled outings! The ACU Steward raised no objection and Bradley duly took his second tactical substitute ride of the match.

Programme changes:

Ht 6: Gray replaced Clark, who was unable to participate in the re-run; Ht 9: Malone replaced C. Roger.

NOTE: Swindon guest C. Roger was leading heat six, when Clark rode into his rear wheel and fell. The ACU Steward excluded Roger for being the primary cause of the stoppage. Roger was not pleased with the decision and was then fined £5 for arguing with the official and warned that he may be suspended from the remainder of the meeting if he continued to protest. Roger misheard the steward and reported back to team manager Vic Scales that he HAD been suspended from the remainder of the meeting. A near riot erupted, with Swindon fans venting their anger at the situation, but the police soon had the situation under control. During the meeting interval, Roger, having changed into 'civvies', went for a further chat with the steward and was told that, in actual fact, he hadn't been suspended from the rest of the meeting. Roger subsequently dashed back into the pits and changed back into his leathers, before taking his last two programmed rides!
